## The universal release-agent for absorbent formwork surfaces

---

The release agent enables immediate concreting after application and creates a uniform concrete appearance.

### High efficiency

through simple storage and economical consumption

- excellent separating effect makes removing the formwork easy
- high economic efficiency through economical consumption (up to 100 m<sup>2</sup>/l)
- preservation of construction equipment and formwork through excellent creep properties
- can be used throughout the year due to frost resistance

Doka-Trenn is available in practical 5, 25, 200 and 1000 litre containers.

---

Doka-Trenn can be used on all wall and floor-slab formwork.

---

Outstanding fair-faced concrete quality by using Doka-Trenn, on structured surfaces.

---
